not for construction

A very interesting and secluded plot of approximately 0.14 acres having consent for a pair of semi detached houses each with a gross internal area of 1082 sq ft.

THE SITE

The site is situated close to the Bordon Inclosure, which is designated as a SANG (Suitable Alternative Natural Greenspace), that has been created for the recreational use of everyone.

Consented land is in such short supply at present so this site which is tucked away in a residential area is a very desirable asset. Being of quite a good width, the Agent feels that someone may consider looking at re-planning the site for a terrace of three units although subject to planning offers will not be entertained.
